CORE COMPETENCIES

‹ Front-end Development
‹ UI Development
‹ Responsive Web Design
‹ User Interface Engineering
‹ Web Application Development
‹ Cross-Browser Compatibility
‹ Application Performance Optimization
‹ Agile Methodologies
‹ Stakeholder Management

IT SKILLS

‹ **Programming Languages:** JavaScript | TypeScript | Java
‹ **UI Technologies:** HTML | CSS
‹ **Development Tools:** Git / GitHub | Visual Studio Code | Azure
‹ **Frameworks & Libraries:** Angular | Angular Material | Bootstrap

EDUCATION

Bachelor of Engineering (B.E.)
Computer Science and Engineering
Bheemanna Khandre Institute of Technology, Bhalki, Karnataka

Diploma/ Polytechnic
Government Polytechnic Aurad, Aurad, Karnataka

PROFILE SUMMARY

- Practiced in developing and maintaining user-facing features for web applications, ensuring seamless and engaging user experiences.
- Proficient in translating wireframes, storyboards, and user flows into high-quality, efficient, and reusable code **using Angular, and TypeScript**.
- **Experienced in optimizing applications** for maximum speed, responsiveness, and scalability, ensuring smooth performance across all devices and browsers.
- **Collaborates effectively with back-end developers and designers** to enhance usability, improve workflows, and create visually appealing interfaces.
- **Skilled in cross-browser testing and debugging,** ensuring functionality, consistency, and smooth interactions across different platforms.
- **Knowledge in documenting technical aspects of projects** for streamlined debugging, future scalability, and efficient knowledge sharing.
- Passionate about **continuous learning and staying up-to-date** with evolving web development trends, tools, and frameworks to drive innovation and efficiency.

WORK EXPERIENCE

Jun'22 – Jun'25 | Software Developer | Leadwinner Corp. | Hyderabad

Highlights:
‹ Developed & implemented responsive user interfaces with Angular, boosted user engagement by 35% and increased cross-platform compatibility by 40%.
‹ Worked closely with cross-functional teams, including UX designers and backend developers, to create smooth and efficient user experiences, resulted in a 35% reduction in UI-related bugs.
‹ Integrated front-end role-based authentication and authorization systems, ensuring secure access control while maintaining a seamless user experience.
‹ Partnered with cross-functional teams, including UX designers and back-end developers, to transform business requirements into efficient, scalable, and high-performance UI solutions.
‹ Engineered reusable code libraries and modular UI components, fostered consistency, efficiency, and scalability across multiple projects.
‹ Diagnosed and resolved UI challenges proactively, enhanced functionality, usability, and overall application performance.

Tech Mahindra Ltd. | Associate Customer Support | Oct'21 – Apr'22 | Hyderabad

PROJECTS

SQUARE UP | FINANCIAL SOLUTION
- Developed Square Up, a comprehensive platform designed to streamline fund tracking for government departments and associated authorities.
- Created an interactive dashboard to enable real-time transaction monitoring and data visualization, enhancing transparency and control.

SCPAR | STATE FUND MANAGEMENT SOLUTIONS
- Designed FundTrack, a powerful system to manage state-level scheme implementations by coordinating activities across state, district, DRDA, and Block administrations.
- Facilitated fund allocation by state officials, distribution by district authorities, and vendor payment processing through the DRDA, ensuring smooth financial operations at all levels.

E-CASE | GOVERNMENT OF ASSAM
- Engineered a digital solution to simplify the registration and management of Criminal Procedure Code (CrPC) cases within district courts.
- Empowered citizens with the ability to file cases electronically while supporting digital workflows for District Magistrates.
- Incorporated tools for notice distribution and comprehensive case management to enhance efficiency in legal procedures.
